

Information Sheet

Pinewood Reserve and playspace proposed upgrades

Background

Council is seeking feedback from the community about proposed upgrades to Pinewood Reserve and playspace. Pinewood Reserve is located on the corner of Pinewood Court and Rotz Court, Golden Grove.

Council's Open Space Asset Management Plan identifies Pinewood Reserve as a local level playspace which primarily caters for people living within walking distance of the play area. The Open Space Asset Management Plan outlines the way in which Council plans, designs and maintains its playspaces across the City and covers hierarchy, design principles, service levels, and design outcomes.

What's being proposed?

In this financial year Council has allocated \$570,000 to upgrade Pinewood Reserve and replace the play equipment. Subject to final design and budgetary considerations, the proposed upgrades (which can be found in the enclosed draft concept plan) include:

- Relocate playspace to take advantage of natural shade
- Replacement of play equipment to include at a minimum:
 - a double swing, including a toddler swing
 - a slide
 - climbing equipment
- Balancing, rocking and spinning play types will also be considered
- Rubber softfall installed around the swings with pine chip softball used in remaining area of the playspace
- New grass area and park furniture in the location of the existing playspace with removal of existing fence
- New tree planting at the top of the reserve and bottom south-east corner
- New picnic setting near the re-located playspace
- New concrete path connection

Given the playspace's local level classification, the provision of a toilet, BBQ or shade sail is not being considered.

Play opportunities and age group proposed for the playspace

Local playspaces are generally small and designed to cater for short term visits. They typically provide play opportunities for one age group. They may include sliding, swinging, balancing, spinning and climbing play types.

The age group proposed for Pinewood Reserve is 5-9 years of age. While demographic data shows the area surrounding Pinewood Reserve is home to children of various age groups, it is recognised that there are nearby playspaces which provide play opportunities for other ages including Elysium Reserve (younger children, with renewal of the playspace anticipated to be completed by Spring 2026) and Golden Fields (all ages).

Have your say

Before we take any further steps, we would like to hear from local residents and users of Pinewood Reserve and playspace. We're particularly interested in hearing people's thoughts about:

- the upgrades and changes proposed
- anything that is particularly liked or valued about the reserve and playspace currently
- preferred play equipment types
- suggestions for any other elements or equipment we could consider.

We encourage feedback from the whole family, including children, where possible.

You can provide your feedback through any of the options below:

Scan the QR code:

- **Online** at: yoursay.cttg.sa.gov.au/reserve-upgrades-26
- **Request a hard copy** feedback form to be posted to you or collect a hard copy at the Civic Centre reception, 571 Montague Road, Modbury
- **Email** community.engagement@cttg.sa.gov.au
- **Call** the Community Engagement team on 8397 7444

We value your comments and would appreciate your feedback **by 5pm, 30 April 2026**.

All feedback received on this proposal will be considered as we develop the final plan for the playspace and reserve, taking into account budget and other project considerations. The final concept plan will be shared on our Your Say website. Those who provide feedback will be advised when the final plan is available.

More information about how we provide, develop and maintain playspaces across our City can be found in the Open Space Asset Management Plan. A link to this plan is available at the Your Say web page above.

Questions

If you have any questions about this project, you can use the Question tool on the Your Say webpage for this project, or you are welcome to contact Valdis Zvaigzne, Strategic Landscape Projects Manager on 8397 7444.
